Summary

   I am a passionate programmer with experience in both back-end and front-end development. I am excited about the opportunity to join Bangkok Bank Public Company Limited and contribute to its digital banking transformation. I look forward to applying my skills to deliver innovative financial services that meet customer needs and collaborating with the team to support the bank's continued success in the digital era.

Skills

Languages: C#, Golang, C++, Python, Java, JavaScript, TypeScript
Front-End Development & Frameworks: React, Angular, HTML, CSS, Next.js, Material UI, Vite
Back-End Development & Frameworks: ASP.NET Core, Node.js, Express.js, Entity Framework
Database Management System(DBMS): Microsoft SQL Server, MySQL, MongoDB
Platforms: Azure DevOps Server, Amazon Web Services (AWS), GitHub
Others: Git, JWT, JSON, Axios, HTTPS, ORM, RESTful APIs, LINQ, Unit Testing
Soft Skills: Adaptability, Problem Solving, Self-learning, Effective Communication & Collaboration

Experiences

Venio CRM   Sep - Dec 2024
Gofive - Full Stack Developer Intern
- The system adopts a Micro Frontend architecture
- Enhanced the system using Agile methodology, implementing 5 new features, resolving 45+ problem issues, and improving 55+ beauty issues.
- Improved and expanded the design system, enhancing consistency across the platform.
- Managed deployment and release processes using Azure DevOps

Employee Evaluation System   May - Sep 2023
Mycos Technologies - Software Engineer Intern
- Created a user authentication system using MSAL.js that works with Azure Active Directory.
- Created a summary report of evaluation results and export it in Excel file format with Excel.js.
- Managed display and responsive design using createTheme function.
- Control routes & protected routes to prevent unauthorized users.
- Display employee evaluation results in various formats: dashboards, tables, charts, etc.

Candidate Evaluation System   Apr - May 2023
Mycos Technologies - Software Engineer Intern
- The system uses frameworks that implement the MVC (Model-View-Controller) design pattern with ASP.NET Core.
- Utilized Entity Framework (EF) for database management with ORM, using it in conjunction with a model and Microsoft SQL Server.
- Utilized LINQ (Language Integrated Query) to query data from the database.

Education

Bachelor of Computer Science   2020 - 2024
Chiang Mai University, Thailand, 3.31 GPA

Certificates & Extracurricular Activities

- AWS Academy Graduate - AWS Academy Cloud Foundations.   22 Mar 2024
- Advent of Cyber 2022 (Basic Cyber Security Knowledge and Experience)   24 Mar 2023
- Teacher Assistant for the AI Course at the Young Computer Scientist Camp. Mar - Apr 2022
